

To the Village Board,

As a life resident and property owner, I am in favor of passing a short term rental law for the Village of Aurora. We need to protect the character of this community. My parents instilled a love and respect for our neighbors that is still in our hearts even though our neighbors are becoming few.

My family has seen the evolution of change to the village and are hoping that your good insite will preserve what is left to keep this community thriving. We need homes for families and workers so we can keep our vital fire department staffed with valuable volunteers..

With the decrease of regular residents, you as a board are going to have to make some very major decisions as to how to continue to finance the everyday operation of this community.
