

I am adding my support for allowing short term rentals to continue in Aurora.

My daughter and her family of eight children from out of state have benefited from being able to rent an entire house. I would not be able to host them in my small house.

Putting in place the proposed restrictive regulations will limit dollars coming into Aurora's economy and the support of local residents.

If in fact short term rentals are limited as proposed, visitors will be looking for lodging further afield.

Considering how briefly this issue has been on the table , why not wait until more public input is established and reviewed?

Thank you,
Mary Hemans
