I want to thank you all for listening carefully to the comments and letters at the Public Hearing on January 21, 2024 and I appreciate Kari's and Evan's prompt and detailed work in preparing these as proposed amendments to the Zoning Law. I request that you adopt these amendments. Although amendments to laws can be made anytime, it is surely best to go forward with a copy as reflective of the residents' expressed needs and concerns as possible.

In that regard, and on the fly, I support what Jim Burkett said as well. It's important to have a law that is correct and not confusing to the extent that you can.  
Thank you again.
