

I am following up with two long-term maintenance violations. I have sent violation notices to both, giving them until the end of April before issuing court appearance tickets. The first violation is a large shipping container being used for a home renovation at 46 Sherwood Road. The project appears to be near completion. The owner voiced plans to donate the container to a 4-H club at the end of the project. If this happens soon, we may avoid the expense of legal fees. The second is rubbish at 525 Main St.

The Inns of Aurora has successfully completed consolidation of the land around the Inn into one parcel. I am issuing another temporary operating permit which will expire on June 20th, giving the Inn time to complete the permitting process for the event tent. In that time it must get approval from the CPP and the Planning Board to complete the process.

I have issued 6 building permits this year. 3 of them in the month of April.

Permit #	Address/Name	Name	Discription
25-01	320 Main St	Siegemund	replace roof -rear kitchen & bath
25-02	391 Main St	Inns of Aurora	minor subdivision/consolidation
