

June 2, 2025

Dear Village Trustees,

I have noticed that our beautiful street scape is suffering from the loss of a number of trees either due to disease or weather. Additionally, there are existing trees that need attention or replacement. I understand that there is some money in the budget that has been allocated for trees. I also understand that we may not have the staff to deal with this.

I would be happy to put together a street plan showing existing locations and tree types. I could also indicate where trees have been lost and where space permits the introduction of new trees. With the trustees' approval, I could reach out to nurseries such as Cayuga Landscape or the Plantsman for street tree recommendations and pricing information. I would assemble the information for your review and consideration.

I hope you feel as I do that our beautiful street trees are an asset to our community. I look forward to your response.

Sincerely,

Tee-Ann Hunter
