

8/24/26

Over the past month I have received several building permit applications. Two from the Inn's of Aurora for 431 Main E.B Morgan House for all the windows to be replaced, and 348 Main "Chimney Corners" for demolition. 34 Cherry Ave for bedroom addition. All 3 of those applications are on the September Agenda of C.P.P.

522 main for siding and windows (not in the Historic District), Inns of Aurora/Renee Moran for a Fireworks permit which was issued.

I have closed out 9 Orchard Lane, 28 Cherry Ave and 48 Cherry Ave by issuing Certificates of Compliance.

Dealing with the fireworks company was very problematic for me. I can't tell you how many texts, emails, and phone calls I received for a 10 minute fireworks display. I would ask that the Village Board to issue a moratorium on the issuing of fireworks permits so that will give the Board time to go through the amendment procedures as listed in the zoning law.
