August-September Report

I issued permits to the following properties
323 Main Street for an event tent structure
391 Main Street for a fireworks display
431 Main Street for replacement windows
30 Wells Road for replacement windows
93 Sherwood Road for alterations

I did a walk through of the water treatment plant. The New York State Uniform Fire Prevention and Building Code went into effect 1/1/84 The building predates the code. Anything that was legal at the time is still legal. I gave a short report to the Mayor and gave her my thoughts on how the Village might proceed with updating the top floor for future use.

All applications or inquires that I receive for buildings that are in the Historic District I consult with Jim Burkett to make sure that I am following the Village Zoning Law.

I issued one Cease and Desist Order for a house that was being advertised on the Air B&B Website as a STR without a STR License.
