10/21/26

Over the past 4 weeks or so I've been receiving updated documents and payments for Short Term Rental (STR) applications fees and STR licenses fees. I have issued 2 licenses so far. We had one STR owner withdraw from the program.

I have issued 4 permits in October. 20 Dublin for a roof replacement on house. 261 Main garage roof replacement, 34 Cherry to build a small addition, and 93 Sherwood for alterations. I have some completed applications that I will be issuing permits for in the next week or so.

I continue to consult with the CPP chairman Jim Burkett on all applications within the Historic District to determine if an application needs to be reviewed by CPP or if the work to a building is just general maintenance
